Education

University of Wisconsin–Green Bay Green Bay, WI
B.S. in Computer Science, Software Engineering & Artificial Intelligence Emphases *Expected May 2028*

- **Honors & Activities:** Semester Honors (Spring 2026); Google Developer Group on Campus member
- **Coursework:** Computer Programming II (C++), Computer Architecture, Database Design, Mobile Computing

Projects

SmartFlow | *Swift, SwiftUI, OpenAI API, XCTest* | *HackGB 2026, Industrial Track* Oct. 2026

- Led a 4-person team's product direction and took ownership of all iOS design, architecture, and development for a financial risk analysis tool for small manufacturers
- Built three **LLM agents** on the OpenAI Responses API with **structured JSON outputs**: a guided business intake interview, a financial document reader, and an action-plan writer
- Developed a **what-if simulator** combining **4** cost and revenue drivers with break-even risk thresholds, verified by **9 XCTest** unit tests
- Built **Face ID** login with a password fallback, storing only a password hash and the API key in the iOS Keychain, restricted to that device

The Wealth App | *Swift, SwiftUI, Apple Foundation Models, Swift Charts*

- Built a five-tab personal finance iOS app covering accounts, transactions, net-worth planning, and goals
- Engineered an **on-device LLM assistant** with Apple Foundation Models, grounding its answers in each user's own financial data
- Added **Face ID** login with a password fallback, keeping only a password hash in the iOS Keychain; built a WidgetKit Home Screen widget
- Built budgets with spending alerts, bill reminders, a MapKit purchase map, and avalanche/snowball debt payoff planning

Library Database Management System | *SQL, Microsoft SQL Server*

- Designed a normalized relational database modeling books, authors, copies, visitors, memberships, and loans with primary/foreign keys
- Wrote SQL queries for active memberships, book availability, and visitor activity

Experience

Associate Banker Dec. 2025 – Present
Chase *Green Bay, WI*

- Manage accounts and transactions in a high-volume branch, resolving customer issues across multiple banking systems under regulatory requirements

Regional Account Manager Feb. 2024 – Aug. 2024
Central States Casters & Material Handling *Green Bay, WI*

- Managed regional accounts, evaluating customer operational needs and recommending material-handling solutions

Senior Sales Account Executive Jan. 2023 – May 2024
Schneider *Green Bay, WI*

- Helped secure a shipping partner generating **$500K+** in annual brokerage revenue
- Set the apprentice seller record with **285** outbound calls and 6.5 hours of talk time in one day

Technical Skills

Languages: Swift, Python, C++, C, SQL, Assembly, HTML/CSS
AI: LLM Agents, OpenAI API, Apple Foundation Models, Structured Outputs, Prompt Engineering
AI Dev Tools: Claude Code, GitHub Copilot
Tools: Git, GitHub, Xcode, Android Studio, VS Code, Visual Studio, Microsoft SQL Server
Spoken: English, Spanish (bilingual)
